SUMMARY

Experienced IT systems administrator and cybersecurity enthusiast with a history of working in multiple industries over a period of 15 years. I've held roles in IT management, server management, system administration, information security. I have a passion for technology and work on multiple projects in my spare time to keep up with the ever-changing industry. I am a native English speaker who is currently learning Dutch (A1) and hoping to improve. I am living in The Netherlands on a residence permit and therefore legally I am able to work.

References, qualifications and any other details are available on request.
